## OBJECTIVE

Passionate frontend developer skilled in building modern, responsive, and SEO-friendly web applications using React, Next.js, Tailwind CSS, and JavaScript. Looking to contribute to innovative projects and grow as a freelancer on Upwork.

---

## SKILLS

- Languages: HTML5, CSS3, JavaScript (ES6+)
- Frameworks/Libraries: React.js, Next.js
- Styling: Tailwind CSS, Responsive Design
- Tools: Git, GitHub, Vercel, Figma (for UI conversion)
- Others: REST APIs, SEO basics, Component-based development

---

## PROJECTS

### ShifaHub – Healthcare Booking Platform

- Developed a web application using Next.js and Tailwind CSS to connect patients with nearby clinics and doctors.
- Implemented dynamic routing, responsive layouts, category cards, hospital listings, and a testimonial slider.
- Features include location-based recommendations and interactive appointment options.
- Tech Stack: Next.js, Tailwind CSS, JavaScript

### BMI Calculator

- Built a responsive React application that calculates Body Mass Index (BMI) based on user input.
- Designed clean UI with Tailwind CSS and implemented real-time calculations and status-based health messages.
- Focused on component reuse and simple state management.
- Tech Stack: React.js, Tailwind CSS, JavaScript

### Portfolio Website Clone

- Cloned a professional portfolio layout using HTML5 and CSS3 to sharpen frontend skills and understand layout structuring.
- Fully responsive design with clean code and sectioned layout (about, projects, contact).
- Ideal for showcasing static web development capabilities.
- Tech Stack: HTML5, CSS3

### Coffee Maker Website Clone

- Created a responsive single-page clone of a coffee product landing page.
- Emphasized responsive design techniques, typography, and layout alignment.
- Aimed at replicating real-world product landing page designs.
- Tech Stack: HTML5, CSS3

---
